HALLOWEEN

*News from Mayville Police Department
& Mayville Fire Department*

Police Department - 989.843.5301

The Mayville Police & Fire Department wish everyone a Safe and Happy Halloween. For the safety of all our small residents, the Village will hold Trick or Treating on Wednesday, October 31st, 2018 between the hours of 6 pm –7pm. Fire Whistle will blow to signify the beginning and the end of trick-or-treating. Mayville Fire Department will be passing out Glow Sticks at the Mayville Fire Hall beginning at 500 p.m. Candy Inspection will be at Bodeis Park immediately following Trick-or-Treating, or at the Fire Department in case of inclement weather. Hot Dogs and Hot Cocoa will also be available. Please be safe and enjoy the evening. 😊

In Addition to the Village of Mayville's regular Trick-or-Treat activities come join us for our Trunk-or-Treat Halloween event in Downtown Mayville! This year we will be hosting a decorating contest/costume contest for our Trunkers! Come on down and decorate your vehicle and wear a costume for a chance to win some money!! ***\$50.00 for 1st Place, \$30 for 2nd Place, and \$20 for 3rd Place will be awarded to the best decorated Vehicle/Trunk Team!!!*** Fulton Street will close for Trunk-or-Treat setup at 4:30 pm. Judging will take place at 5:30 pm. Make sure you bring enough candy!!! (Candy Donations are Welcome and Appreciated, as well!!)

Trunk-or-Treat!!!

October 31st, 2018 Hours – 5:30 -7:00 pm

(Special Thanks to our Prize Sponsor: Randy Valentine!!)

News from Department of Public Works

DPW Department - 989.843.6621

VILLAGE OF MAYVILLE SNOW CLEARANCE GUIDELINES

The Village of Mayville DPW will be plowing to combat any storm, however, there will be hazardous conditions until all the Village's roads and streets have been treated.

It is unavoidable for Village of Mayville's snow plows to push snow on sidewalks at all intersection corners during cleanup operations. **It shall be the responsibility of the adjacent residential/business owner to remove these snow berms from the corners of intersections.**

RESIDENTS CAN ASSIST THE DPW CREWS IN THEIR EFFORTS BY DOING THE FOLLOWING:

- a. Residents should not park on the street during a snow event. On-street parking is prohibited by Village Ordinance.
- b. Commercial property owners are responsible for plowing commercial parking lots, driveways, and public sidewalks adjoining their businesses.
- c. Residential property owners are responsible for shoveling or plowing public sidewalks adjoining their homes.
- d. Shovel snow from driveways into the parkway and not into the street. This will help to avoid creating dangerously slippery conditions for both motorists and pedestrians. **Shoveling snow into the street is a Village violation.**
- e. Shovel out fire hydrants that are in or around your property and around meters to aid utility meter readers.
- f. Clear sidewalks of snow for the safety of pedestrians and children walking to school.
- g. Uncover your mailbox and create a path for postal vehicles to pull up to mailboxes.
- h. Help your neighbors. For many residents, age or medical conditions make it difficult to shovel snow without risking their health.

SNOWFALL EVENTS

- a. The Village of Mayville DPW has a goal of clearing all streets within twenty-four (24) hours **after** the snow stops falling. Heavier snows often take longer to clear.
- b. Driveways: When plowing is required, snow "berms" are unavoidably created across driveways. The plow operators do not have control over the wind-row of snow coming off the edge of the blade. The DPW tries to keep this problem to a minimum. **Residents are reminded that shoveling or plowing snow into the street is strictly prohibited by local ordinance.** To minimize the frustrating problem of the snowplow covering your driveway with snow after you've just shoveled it, stand facing the street and shovel snow into the yard or parkway instead of the street.
- c. Private Snow Plowing: Property owners should be aware that placing, dumping, or pushing snow onto Village streets or right-of-way from adjacent properties is **prohibited by the Village of Mayville.**

SIDEWALKS MAINTENANCE

- a. The Village of Mayville provides some sidewalk clearing in the downtown only. The village does not clear sidewalks in residential or business neighborhoods and applauds citizens and proprietors for clearing sidewalks to help their neighbors and customers weather the storm.
- b. Sidewalks should be cleared to the pavement at least one shovel's width within 24 hours after a snowfall event. This makes it easier for children to walk to school or the bus stop. Please lend a hand to elderly or disabled neighbors who cannot clear their own sidewalks, porches, and steps.
- c. Chemicals used in Snow Fighting: The Village of Mayville utilizes a mixture of rock salt and organic liquids containing sugar beet juice in the fight against snow accumulation and freezing on the roadways. This combination allows for the material to be effective down to a temperature of minus thirty degrees (-30) Fahrenheit. In addition, this mixture will be less corrosive to the streets, vehicles, and vegetation within the Village of Mayville. Residents should expect to see a brownish residue on the streets as opposed to the white residue. As with the salt, this material is easily washed off vehicles.
- d. In addition, the Village of Mayville will be proactive in their snow fighting with the application of an anti-icing program where the streets are treated with a chemical composition to combat the onset of the accumulation of snow and ice and also prohibit the bond between the snow and ice and the pavement. This will allow for a quicker cleanup of the roadways, while also slowing down the snow/ice accumulation on the roadway. This chemical composition to be used consists of salt brine, beet juice, and calcium chloride. Residents should expect to see this on the main routes throughout the Village. As more equipment becomes available this treatment will be expanded to all the streets in the Village of Mayville.

MAILBOXES.

- a. The Village of Mayville DPW make every effort to clear the roads from curb to curb where cars are not parked on the street. In many cases with wet snow, the snow or plow blade may damage/remove mailboxes that are set close to the street; this is unavoidable. Mailbox damage complaints will be dealt with on a case-by-case basis.
- b. **The Village of Mayville will not reimburse for any mailbox damage on improperly located mailboxes.** The standard and accepted mailbox placement should be 42 inches measured from the ground surface to the bottom of the mailbox. The mailbox should be located so the front of the box is no closer than 6 inches from the back of curb. Any questions regarding the placement of mailboxes should be directed to the Village of Mayville Post Office at 989.843.5351.
- c. **The residents of the Village of Mayville are asked to be patient and recognize that during the winter months there may be some minor inconvenience. Snow operations are labor intensive and equipment does break down on occasion. Snow removal crews work long hours to keep the streets clear and safe. We ask for everyone's cooperation to help keep our streets safe as well.**

Brush and Yard Waste Pick-Up

The Village of Mayville's Department of Public Works (DPW) picks up yard waste and brush from April through October. All brush and yard waste should be placed by the road no later than 7:30 am on Mondays. Yard waste **MUST** be in a container or yard waste paper bags to be picked up. Yard waste in plastic bags will not be picked up. **DO NOT** put trash or items other than yard waste into the containers or bags. If a Holiday falls on Monday, pick up will resume the following week!!

A friendly reminder: The DPW will pick up piles of brush up to four (3) feet wide and four (3) feet high by six (5) feet long. All brush piles must contain branches less than four (4) inches in diameter. When branches are placed at the curb, place the cut end toward the road edge and stack neatly. This will help speed up the chipping process. The Village **WILL NOT** pick up whole trees or large amounts of brush.

LEAF PICK UP POLICY

DPW will begin picking up leaves beginning October 8, 2018 through December 5, 2018 or until the first snowfall. **Leaf pickup and Vacuuming is on Monday, Tuesday, and Wednesday ONLY, weather permitting.** Residents must rake their leaves to the street for vacuuming, or places leaved in **PAPER BAGS** for pickup. **DO NOT** include any other debris in leaf piles, such as rocks, grass clippings, or sticks in vacuuming piles. The following Guidelines Apply:

- Leaves must be raked or blown to the road, not the space between the sidewalk and road. The Leaf Vacuum only has a 24-inch reach, and DPW will not rake leaves for pickup.
- Once the Brine Tank has been installed and the Leaf Vacuum removed, there will be no further leaf vacuuming until next Fall.
- Keep Leave piles 5 to 6 feet from a mailbox post
- Brush piles must be kept separate from leave piles. Leaves with brush will not be vacuumed. If this results in Blight, **TICKETS WILL BE ISSUED.**
- **THERE IS NO OPEN BURNING OF LEAVES ALLOWED IN THE VILLAGE OF MAYVILLE. VIOLATIONS WILL BE TICKETED.**

Please Note: Pickup and vacuuming schedule is based on weather and equipment and is subject to change.
